

EXACT 70 MOBILE TRUCK

Wheel aligner for cars and trucks, portable version 

EXACT 70 MOBILE TRUCK is a professional 8-sensor wheel aligner for light and heavy duty trucks.

Sensor head with 2 high-resolution cameras, electronic inclinometer and level.

Wireless data transmission through 2.4-GHz industrial radio devices, rechargeable commercial AA batteries with charger.

Very compact and lightweight, it features oversize boom for large wheels.

Low sensitivity to light noise makes it suitable for high ambient light environments.

Sensor head features one-piece aluminium casting body for high precision!

SOFTWARE

Corghi wheel alignment software **EXACT PLUS CAR / TRUCK**

Runout compensation may be push-pull or with lifted wheels, database with over 20,000 vehicles, setup screens with animated cursors and colour indications enable operator to work at a distance, printout with graphics.

Live caster and kingpin inclination (KPI) measurement and adjustment
Ready for operation with Cal One-Touch® (steering sensor calibration), Aligner OnLine.
